Enhancements

Accounting and Finance

No enhancements at this time.

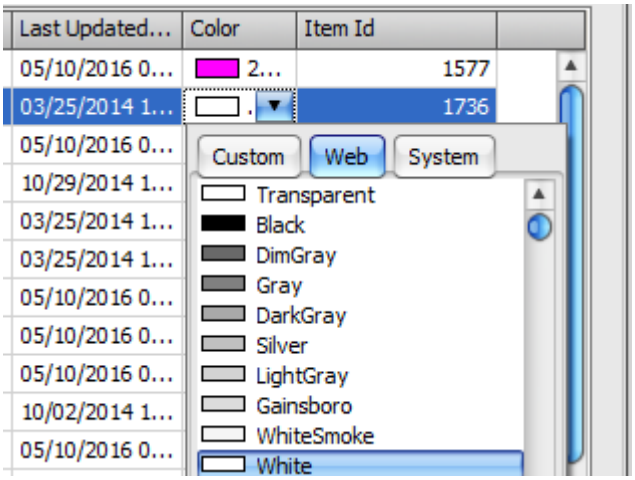
JailTracker™ What's New, by CJ Copyright ©2016

Administration

Alert Categories

Alert Categories – Ability to color code

Administrators now have the ability to color code Alert Categories.
LOCATION: Administration Tab/Maintenance/Alert Categories



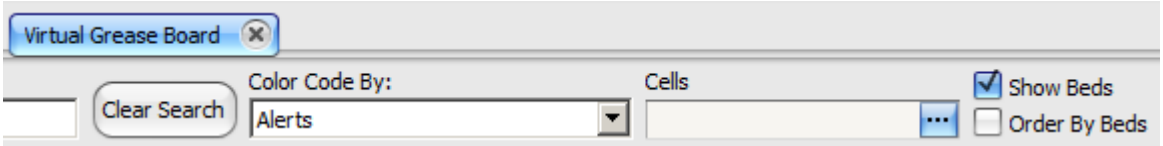
JailTracker™ What's New, by CJ Copyright ©2016

Facility

Grease Board

Alert Feature as Drop Down choice on Grease Board

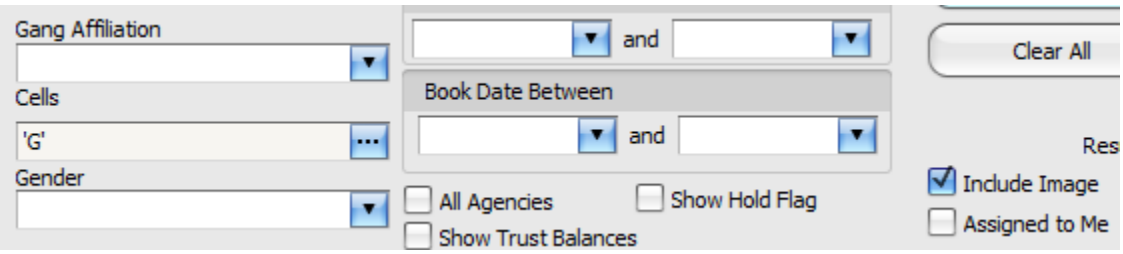
User now has the ability to filter alert types on the grease board.



Incidents

Incident Subject Selection by Photo

When User creates an incident report, the User now has the option of selecting the subject by photo in a specific location one at a time.

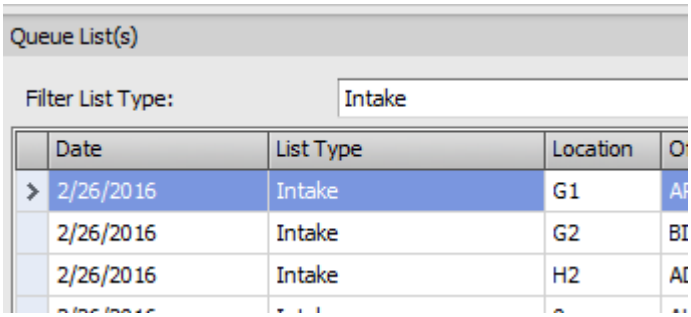


JailTracker™ What's New, by CJ Copyright ©2016

Queue Manager

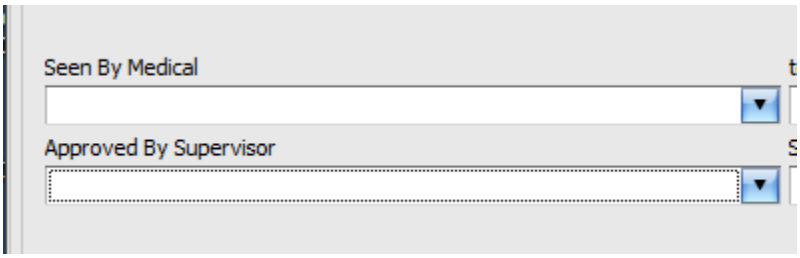
Cell Location

Cell Location has been added to the Queue Manager



Drop Down Boxes

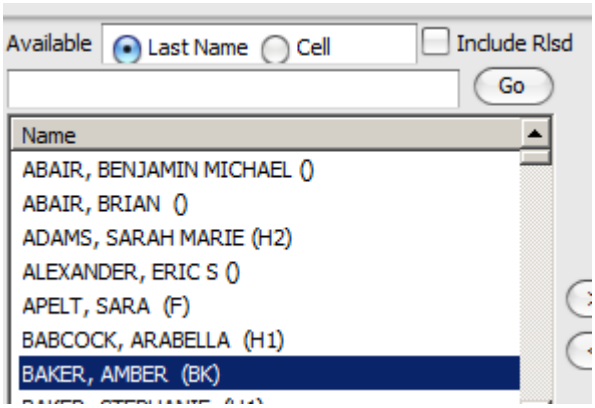
Queue Manager now has drop down boxes with a selection list.



Scheduling Visits

Show Offender cell assignment next to Offender name.

Cell assignments are now shown next to Offenders name.



JailTracker™ What's New, by CJ Copyright ©2016

My Stuff

No enhancements at this time.

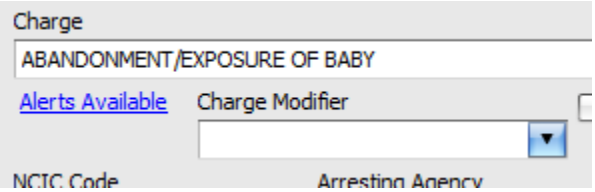
JailTracker™ What's New, by CJ Copyright ©2016

Offender

Arrest Charges

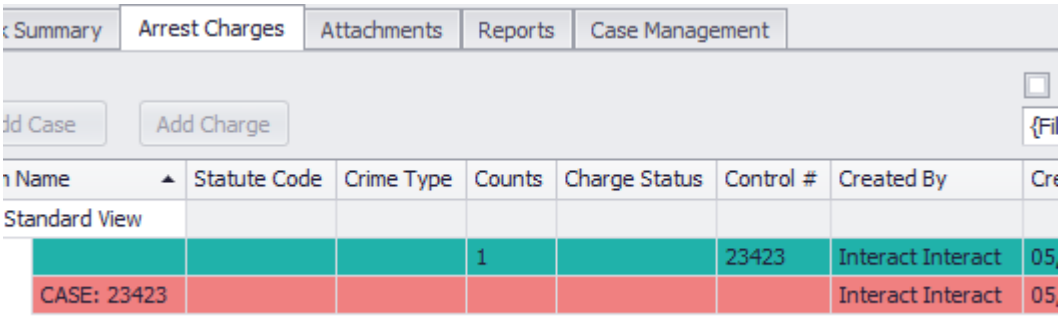
Alerts-clickable link

Arrest Charges will now have a clickable link that will alert the User if there is alerts available or not for the selected charge.



Sentence View - Security to Hide Screen

If User does not have rights to “Sentence View” on the Arrest Charges tab, the User will no longer be able to see the “Sentence View” as it will be hidden.

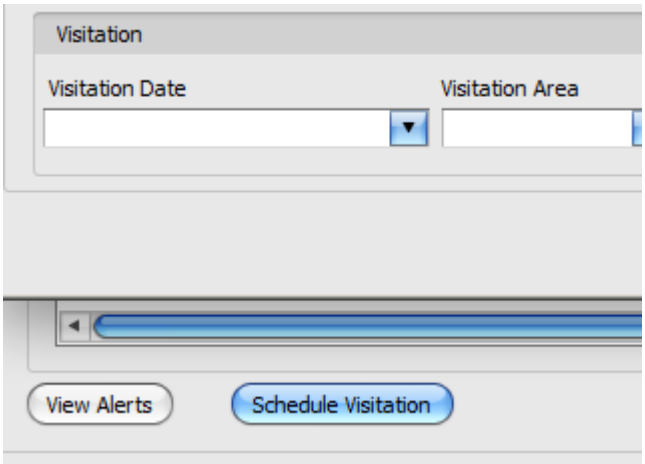


JailTracker™ What’s New, by CJ Copyright ©2016

Logging Visitation

Button to open up Record Visitation Form for Offender Scheduled.

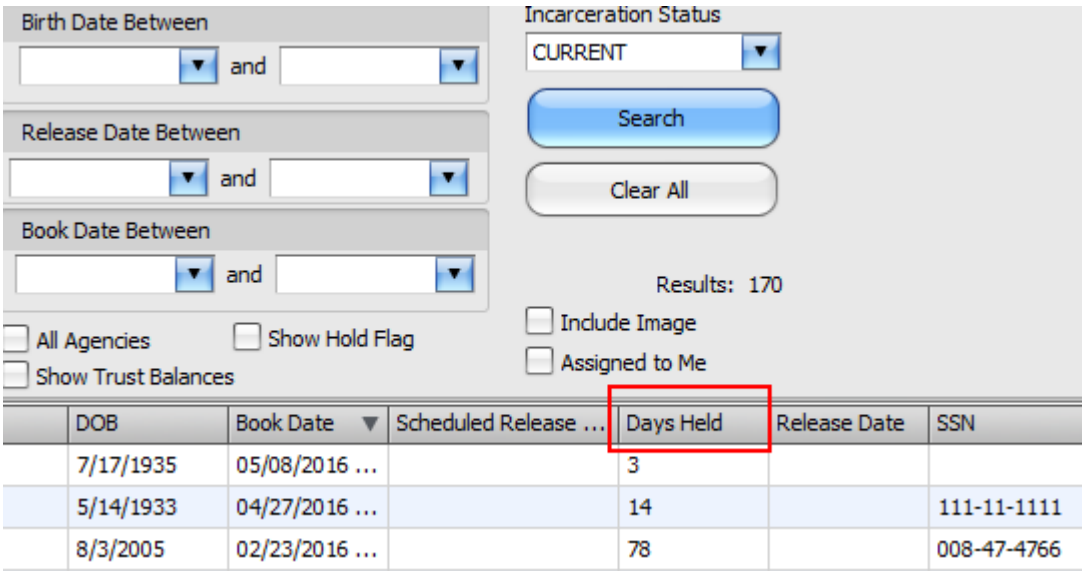
On Log Visitation Screen a Schedule Visitation button has been added that allows the option to schedule a visit instead of having to go to the calendar to schedule a visit.



Search Tab

Search Screen-Added "Days Held" on grid

User can now see the "Days Held" On the Search grid.



JailTracker™ What's New, by CJ Copyright ©2016

Security Settings

Audit Shift Log

Category Security

Security has been added to categories for the Audit Shift Log.

Facility Level Visitor

Alert Override Rights

Users now must have rights to override a banned visitor.

Mass Cell Transfer

Alert Override Rights

Users now must have rights to override a Mass Cell Transfer

Alerts

Category Entry and Edit Security

Users will now need security for category entry and edit:

Ability to allow only classification to enter classification type alerts and edit them (but intake cannot).
Ability for Intake to be able to enter intake type alerts and edit them (but classification cannot).
EXAMPLE:
Intake can enter and edit SS NOTE. Classification cannot enter them or edit, but can see them.
Classification can enter Allergy alert, but intake cannot enter or edit those types, but can see them.
