Enhancements

ACCOUNTING AND FINANCE

No enhancements at this time.

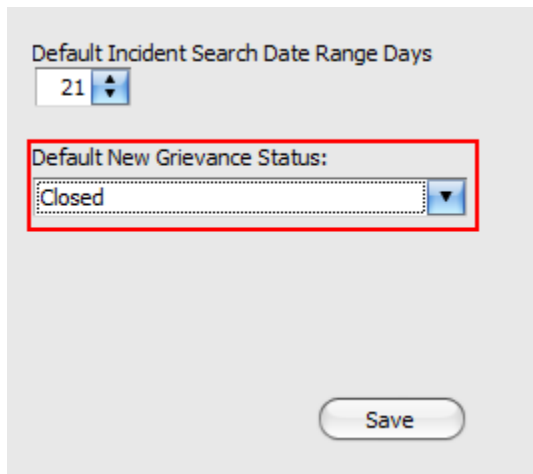

Administration

No enhancements at this time.

FACILITY

Grievance

1. Add setting for default status of grievance. The Administrator will need to select the Default New Grievance Status on the Administration Tab/Application Settings/Misc. Tab and select save button to save changes.

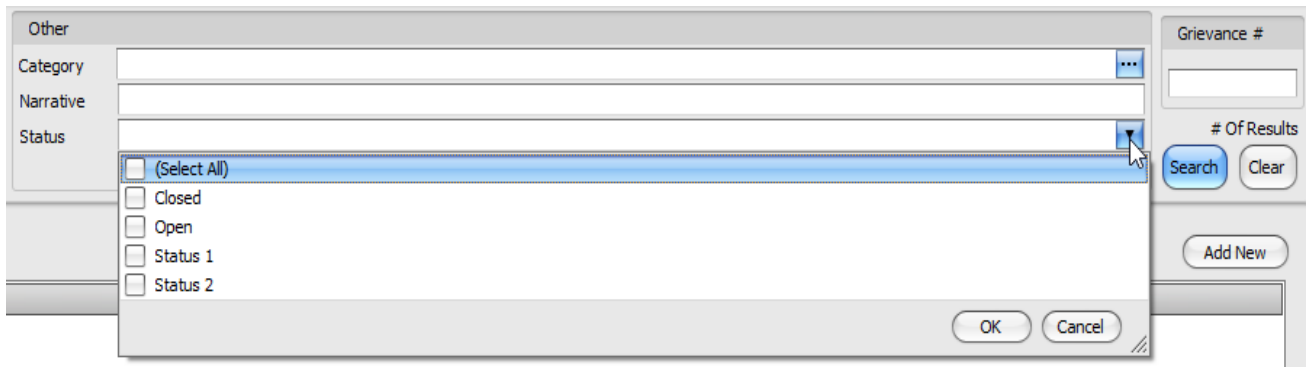

Default Incident Search Date Range Days
21

Default New Grievance Status:
Closed

Save

2. Added the ability to make the status search multi-select for grievances.

All Agencies Show Hold Flag Include Image

Show Trust Balances Assigned to

ice	Cell	Bed	DOB	Release Date
-----	------	-----	-----	--------------

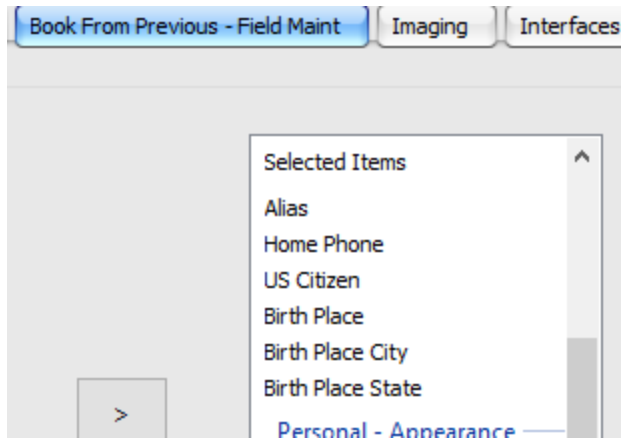

My Stuff

No enhancements at this time.

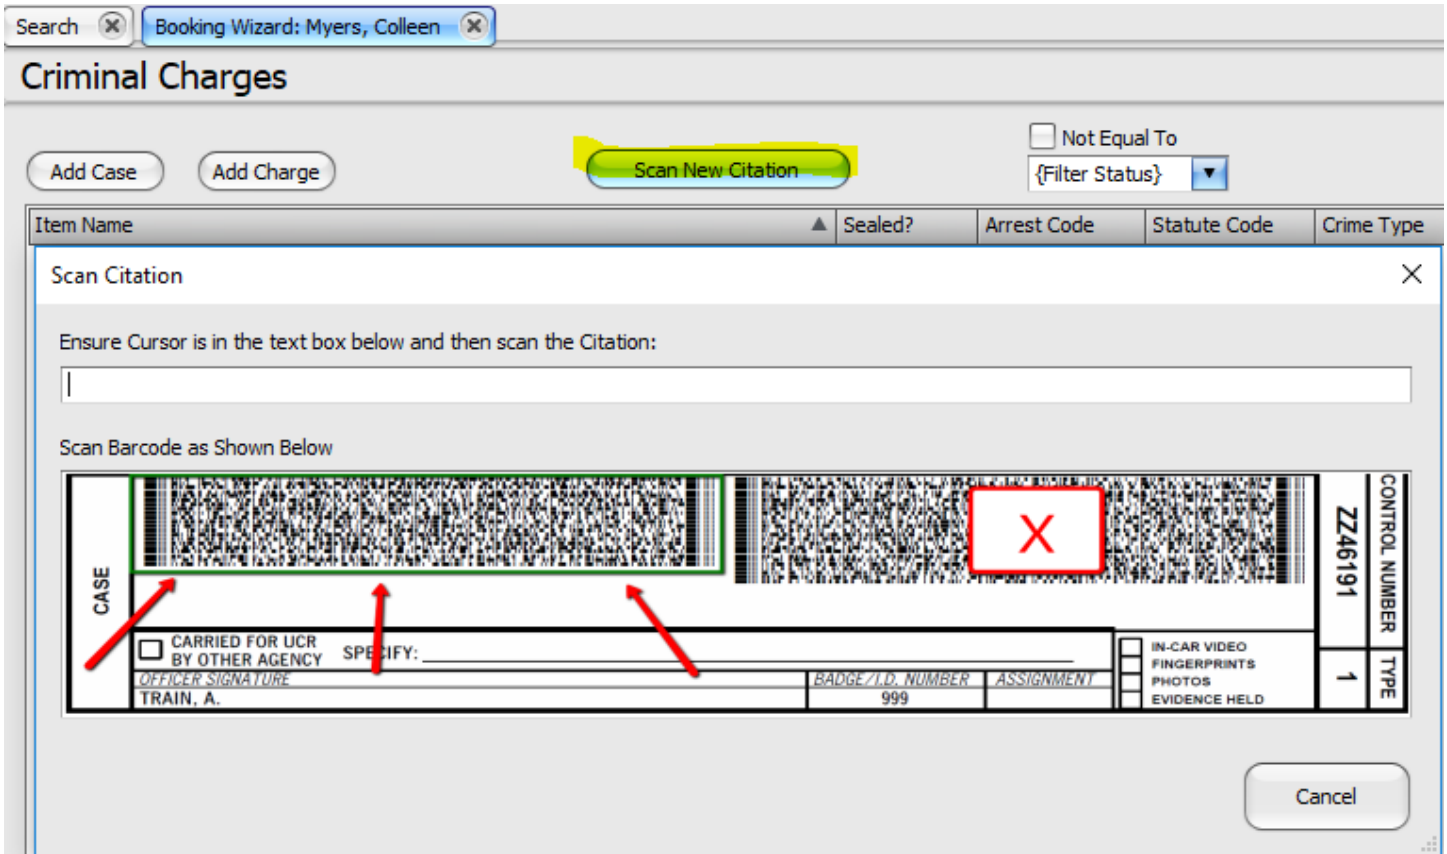

Offender

Booking

1. Added Birth City and State fields on the Booking Info page added to the options to choose to fill in from previous record. The Administrator will need to add these selections on the Administration Tab/Application Settings/Book From Previous-Field Maintenance tab.

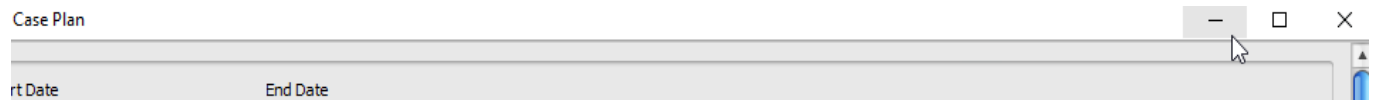

2. Added E-Citation Import of Barcode Information. The User can now scan in an E-Citation using the barcode on the E-Citation. The User will select the 'Scan New Citation' button, this will open the Scan Citation Window.

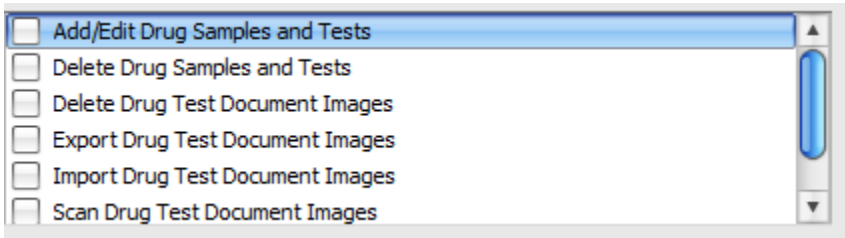

Case Plan

1. Added the ability to minimize the case plan so users can maneuver in other parts of booking.

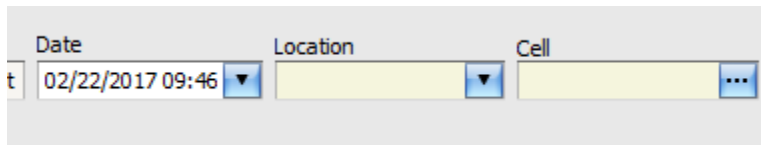

Drug Test Tab

1. Added Drug Test Document Image Security.
Administrators can now set securities for add/edit, import, export, and delete.

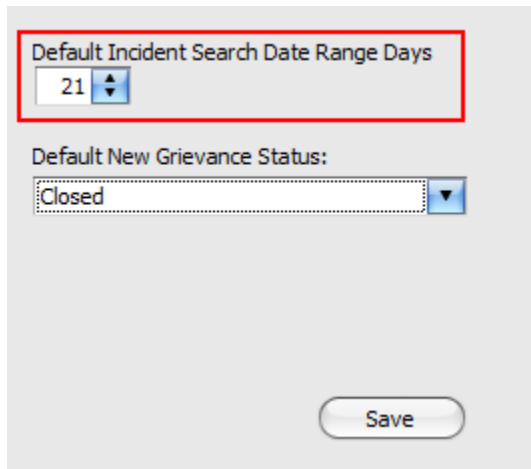

Incidents

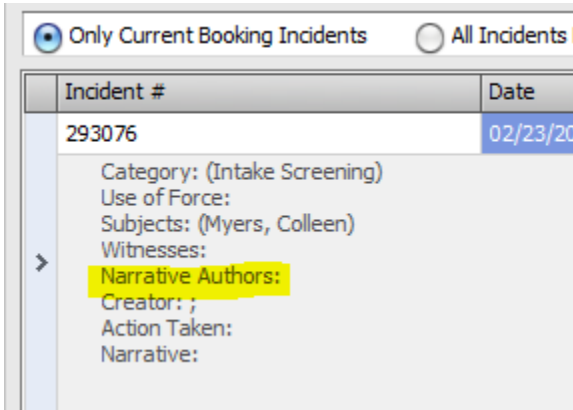

1. Added the ability to set the fields: Date, Location, and Cell as required fields.

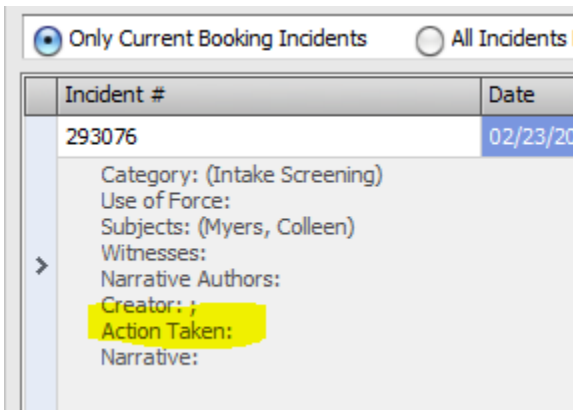

2. Added an application setting to expand date range in Incidents. The Administrator will need to select the Default New Grievance Status on the Administration Tab/Application Settings/Misc. Tab and select save button to save changes.

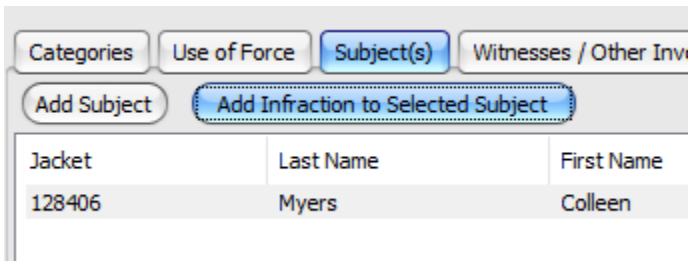

- Added display of the creating author in the incident search results.

- Added Action Taken in the Incident Search Results.

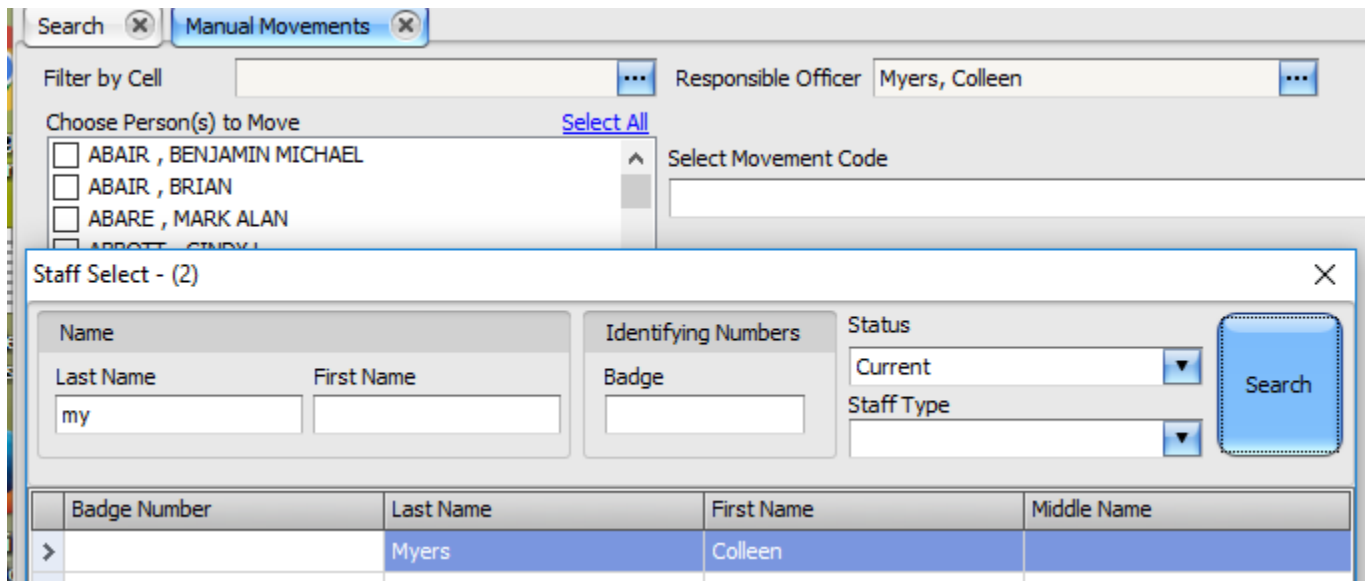

- Added the ability to allow User to add an infraction to an incident they did not create without having rights to change the narrative.

Manual Movements

- Added dropdown field to set officer doing movement.
User is able to select the ellipses button that will open a Staff Select window to set the officer doing the manual movement.

The screenshot shows the 'Manual Movements' application window. At the top, there is a search bar and a 'Manual Movements' tab. Below the search bar, there is a 'Filter by Cell' field and a 'Responsible Officer' dropdown menu set to 'Myers, Colleen'. A 'Choose Person(s) to Move' section contains a list of names with checkboxes: ABAIR, BENJAMIN MICHAEL; ABAIR, BRIAN; ABARE, MARK ALAN; and ABBOTT, STYDY. A 'Select All' link is present. To the right, there is a 'Select Movement Code' dropdown menu.

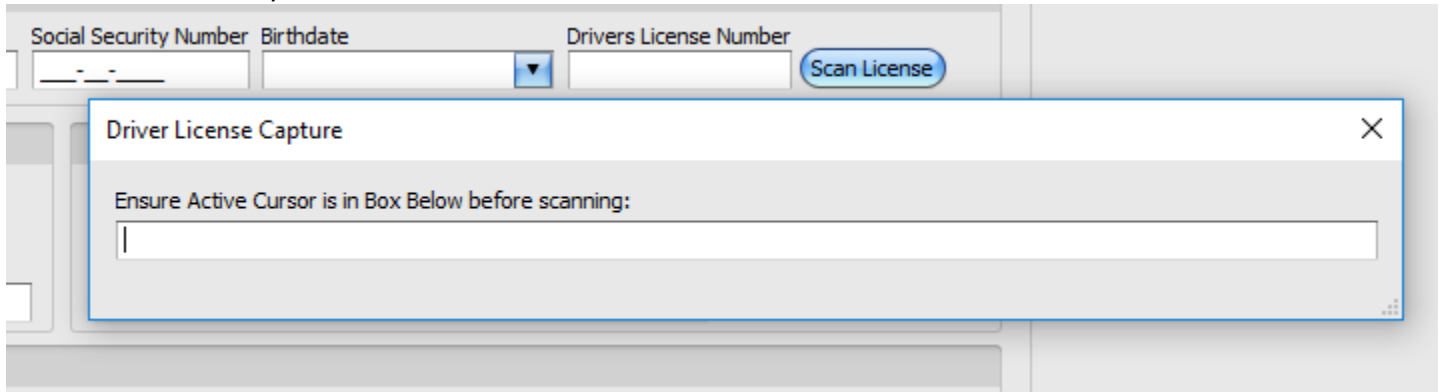

A 'Staff Select - (2)' dialog box is open in the foreground. It has a 'Name' section with 'Last Name' (containing 'my') and 'First Name' fields. An 'Identifying Numbers' section has a 'Badge' field. A 'Status' section has a dropdown menu set to 'Current' and a 'Staff Type' dropdown menu. A blue 'Search' button is on the right. Below the form fields is a table with the following data:

Badge Number	Last Name	First Name	Middle Name
>	Myers	Colleen	

Scanning in Driver's License

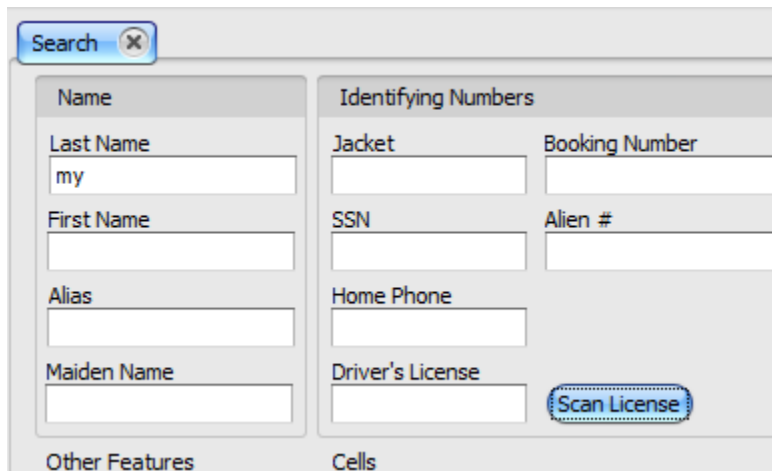

1. Added the ability to scan Driver's License in multiple areas in JailTracker.

a. Facility Visitors

The screenshot shows a form for Facility Visitors with fields for Social Security Number, Birthdate, and Drivers License Number. A "Scan License" button is next to the Drivers License Number field. A dialog box titled "Driver License Capture" is overlaid on the form, containing the instruction "Ensure Active Cursor is in Box Below before scanning:" and a text input field.

b. Search

The screenshot shows a "Search" form with a close button. It is divided into two main sections: "Name" and "Identifying Numbers".

Name		Identifying Numbers	
Last Name	<input type="text" value="my"/>	Jacket	<input type="text"/>
First Name	<input type="text"/>	SSN	<input type="text"/>
Alias	<input type="text"/>	Home Phone	<input type="text"/>
Maiden Name	<input type="text"/>	Driver's License	<input type="text"/>

Other Features: Cells:

A "Scan License" button is located next to the Driver's License field.

c. RMS search screen

Public Safety Search

MAIN SEARCH

Right Click Menu

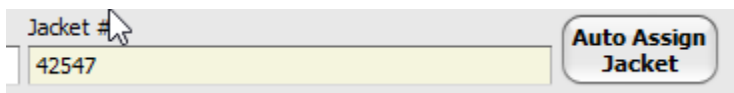

View Alerts has been added to the right click menu. User will right click on a selected offender in the search grid to open the Right Click Menu.

SECURITY SETTINGS

Booking Process

1. Jacket Number: Security has been added to lock down the Jacket number during the initial booking to prevent staff who do not have rights from changing it.

The screenshot shows a form with a label "Jacket #" and a mouse cursor pointing to it. Below the label is a text input field containing the number "42547". To the right of the input field is a button labeled "Auto Assign Jacket".

INTERFACES

Dataworks

1. Dataworks interface update to pull images into JailTracker

Fixed Bugs

Alerts

1. Fixed Bug in Alerts where users were able to edit comment section even though security set was for read only.

Booking

1. Fixed Bug where importing booking records would create a 'ghost' record.

Custom Forms

1. Fixed Bug error on custom forms when saving if a blank is selected in the single list item: DBNull to Interger.
2. Fixed Bug where locked incident would still allow edit of custom forms.

Facility

1. Fixed Bug where the Audit Log was not cleared on a sealed or expunged record.

Greaseboard

1. Fixed Bug where numerous inmates marked as temp but are current inmates, when you select to hide temp inmates are removed from the grease board creating inaccurate information.

HOLDS

1. Fixed Bug where expiration date does not refresh between selections.

Incidents

1. Fixed Security Bug where user was able to edit narrative after the incident had been locked.
2. Fixed Bug that did not remove the infractions that were tied to the incident that has been deleted.
3. Fixed Bug that let staff have the ability to create a Response Assignment for Locked Incidents.
4. Fixed Bug where Staff who do not have access to the Confidential Incident category, can search by the Confidential Category in the Facility Incident Search as well as Offender Incident Search. When they do, Confidential Incidents are displayed.
5. Fixed Bug where locked incident would still allow edit of custom form
6. Fixed Bug -Response assignment-in the search results there is created by name, created time- the created time column only gives a date but no time.
7. Fixed Performance Bug when searching for incidents with many subjects/witnesses.

Release

1. Fixed Bug where in the application settings the transfer field needs to be hidden is honored.
2. Fixed Bug- Temp to Final will update multiple records instead of just the one correct Release Info Record.

RMS

1. Fixed Bug where the RMS association is missing.

Security

1. Fixed Bug where when a user who has no rights to note categories selects the ellipses it throws an error.

Visitation

1. Fixed Bug where the Facility Visitor List contains names not listed in the Facility Visitor Maintenance List.

Workflow

1. Fixed bug where user was able to use the WorkFlow button once an inmate was released.
